

Zahid Hussain

Laravel Developer

Enthusiastic Laravel developer with 1 year of hands-on experience in building web applications using Laravel. Proficient in developing backend features and managing databases. Familiar with Laravel Blade templates, Eloquent ORM, and basic validation techniques. Experienced in working with relational databases, handling dynamic forms, and integrating role-based access control using the Spatie Permission package. Eager to learn and grow by contributing to real-world projects, focused on writing clean, maintainable code while collaborating effectively within a team environment.
